Sir:

The courtesy extended by Examiner Andrew Graham and Examiner Xu Mei during a telephone conversation held on January 26, 2006 is appreciated. During the telephone discussion, Applicant indicated an intent to cancel certain elements that allegedly contained new matter. Moreover, Applicant raised arguments as to why there was no motivation to combine the references in that the modification would render the prior art unsatisfactory for its intended purpose. Applicant also argued that the user code presented in the claims was different from Schotz's house code. Amendments were discussed to further clarify Applicant's user code. Moreover, possible amendments were discussed related to a Viterbi decoder and a 2.4 GHz direct conversion receiver. No agreement was reached as to the claims.
